

### 北京斯达特SH2200-CNC数控系统 Beijing SH2200-CNC Controller

- ◆ 10.4寸彩色液晶显示器
- ◆ 32-64M内存+USB接口
- ◆ 控制轴数:2-4轴控制器
- ◆ 通讯接口:RS232串口
- ◆ 输入/输出接口:16input/16output
- ◆ 101标准薄膜键盘接口

### Powermax 1650美国海宝空气等离子切割机 powermax 1650 USA Hypertherm air plasma cutter

- |              |                             |
|--------------|-----------------------------|
| 最大切割厚度: 19mm | Max cutting thickness: 19mm |
| 穿孔能力: 12mm   | Perforation capacity: 12mm  |
| 质量切割: 10mm   | Cutting mass: 10mm          |

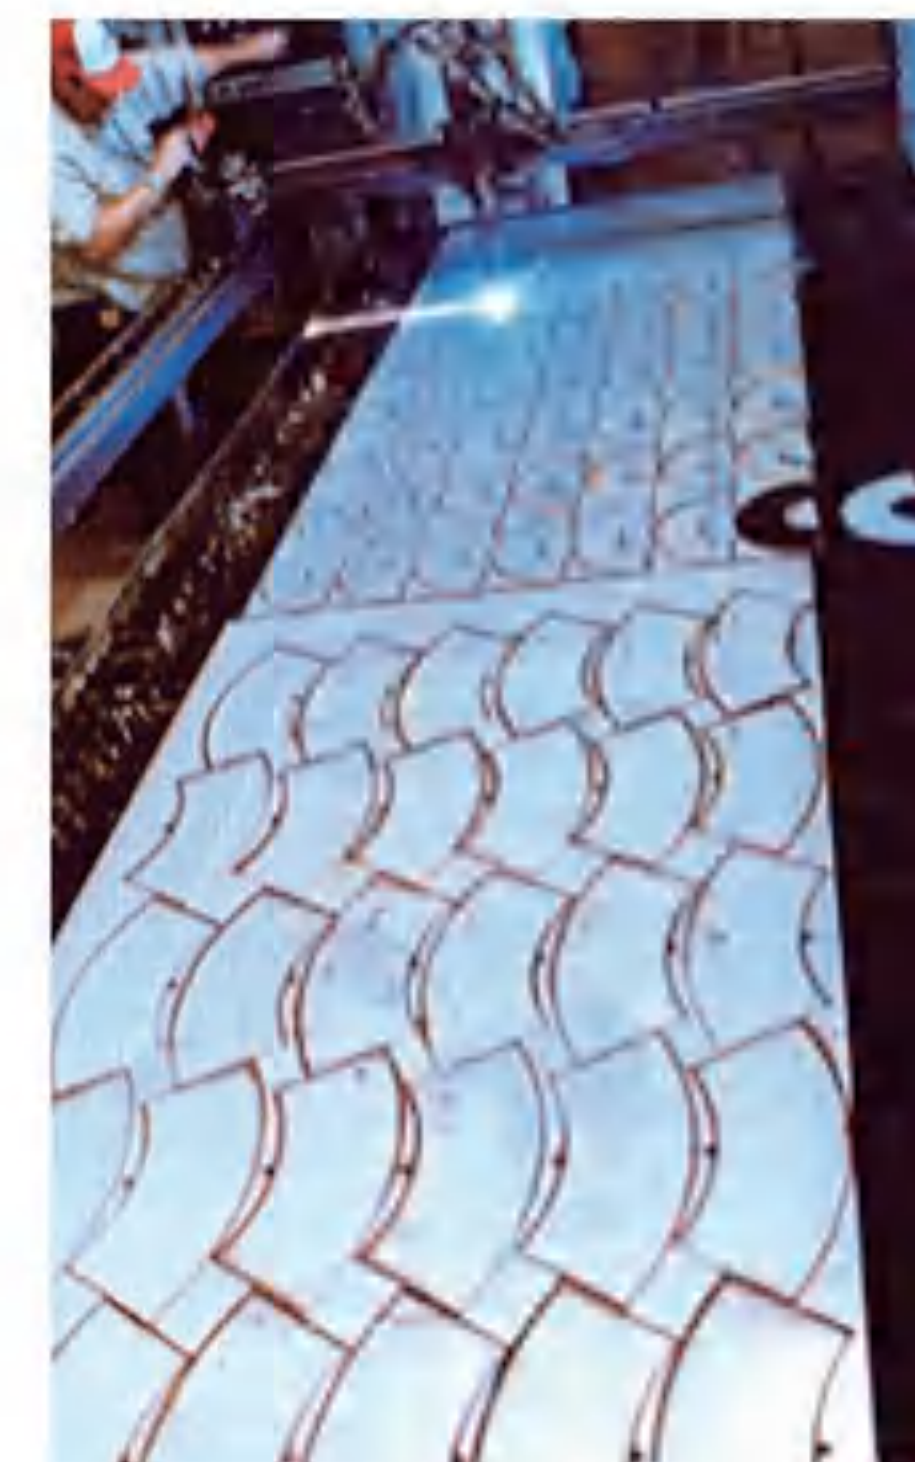

### Hyspeed HT2000美国海宝水下氧气等离子切割机 Hyspeed HT2000 Underwater oxygen plasma cutter of USA Hypertherm

- |              |                              |
|--------------|------------------------------|
| 最大切割厚度: 50mm | Max cutting thickness: 50mm  |
| 穿孔能力: 25.4mm | Perforation capacity: 25.4mm |
| 质量切割: 38mm   | Cutting mass: 38mm           |
| 切割厚度: 12.4mm | Cutting thickness: 12.4mm    |

### 美国海宝Micro EDGE 数控系统 Hypertherm Micro EDGE CNC system

- |                                     |   |
|-------------------------------------|---|
| ◆ Windows 界面                        | ◆ Windows interface   |
| ◆ 15英寸彩显                            | ◆ 15" Colour CRT  |
| ◆ Celeron 2.4Ghz中央处理器、256MB内存、40G硬盘 | ◆ Celeron 2.4 Ghz CPU, 256MB, 40G disk                                    |
| ◆ 卓越的处理速度和精确度                       | ◆ Excellent processing speed and accuracy                                 |
| ◆ 中文界面, 轨迹跟踪                        | ◆ Chinese interface, track tracing  |
| ◆ 中断点记忆及快速返回中断点                     | ◆ Memorizing the interrupting point quickly returning to the interruption |

### FastCAM套料软件 FastCAM jacking software

- ◆ FastCAM澳大利亚原装进口, 集绘图、路径生成、校验、套料功能于一体;
  - ◆ 读入任何绘图软件生成的DXF、DWG或LGES类型文件;
  - ◆ 可将任意平面图形转换成NC代码实现自动或手动套料, 提高板材利用率;
  - ◆ FastCAM数控切割套料软件集成了CAD绘图、自动套料、自动编程、切割模拟和成本计算等功能, 专门用于火焰、等离子、激光、水射流等数控切割机。
- ◆ FastCAM imported with original package from Australia integration of drawing, path generation, check and jacking functions.
- ◆ Read-in any DXF, DWG or LGES type document generated by the drawing software.
- ◆ Any plan figures may be transferred into NC codes to realize automatic or manual jacking so as to improve the utilization ratio of plate.
- ◆ FastCAM digital control cutting jacking software integrates such functions as CAD drawing, automatic jacking, automatic programming, cutting simulation and cost calculation etc. It is special application to flame, plasma, laser, water jet etc. digital control cutter.

### FAGOR 8035 数控系统 FAGOR 8035 CNC System

- |                             |   |
|-----------------------------|---|
| ◆ 具有零件图形动态轨迹显示和切割跟踪功能       | ◆ Dynamic trace showing of spare parts graph and cutting tracing function                                   |
| ◆ 零件程序内存量为32 K, 外存不限        | ◆ An internal memory of 32K for spare parts programs and external memory limitless                          |
| ◆ 具有零件图形切割路径快速预演示, 编译自动报错功能 | ◆ Rapid pre-showing of the cutting route of the spare parts graph and self error-reporting during compiling |
| ◆ 具有自动补偿功能                  | ◆ Auto-compensation   |
| ◆ 断电数据保护功能                  | ◆ Data protection upon power-off  |
